Maulik Sompura

Computer Engineer

Hello, welcome to my profile. I am Bachelor of Computer Engineering and Currently Working as Software Developer. Loves to code. I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me. Do check other details below.

Projects

ERP System for PCB Manufacturer
Built a ERP system with Phalcon PHP & AngularJS and database on MySQL at Helimp Softomation.

toPDF
Simple HTML to PDF converter with given link or HTML string build in Phalcon with use of wkhtmltopdf library.

mCare
A demo app to get existing data from MySQL database to display in the Electron CrossPlatform app. Designed with Angular 5 and data connection with NodeJS.

Avasar
Avasar is an Online Event Management Web System. It was my college project made in ASP.Net and C# with database in MSSQL Server. This project was temporarily hosted on AWS cloud.
